O.K.H ENTERPRISE(G.Z)CO.,LTD
AUFI PACKAGING(G.Z)CO.,LTD

COMPANY PROFILE

OKH Enterprise(G.Z) Co.,Ltd was found in year 2011.As be a professional exporter of various kinds of adhesive tapes and package products, With rich experience in adhesive tape industry, our business has covered European, American,Africa,Asian and Australian countries.Worked by professional engineers,over 12-year experience in export and multi-language customers' services, In year 2014,In order to expand more products,we found **AUFI Packaging (G.Z)Co.,Ltd**

We sell more than twenty containers in annually, and keep faster growing. We understand the importance of timely delivery, exceptional customer service, and taking responsibility for meeting your needs. We pride ourselves on being a flexible partner that can quickly adapt to your changing business requirements.

We value long-term business relationships and strive to exceed our customers' expectations. We understand that each customer is unique, and we are dedicated to providing tailored solutions to meet your specific requirements.

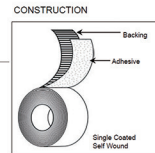

We provide the most reasonable prices,the most professional products and the best services And looking forward to developing together with friends at home and abroad and building up a glorious future

Main products: Packing tapes,Stationery tapes,Masking tape,Double sided tapes,Duct tape Pre-tape masking film,Aluminum foil tape,Pvc insulation tape, Warning tape, Butyl tape, Reflective tape, Fiberglass tape,Antislip tape, Washi tape etc

No. :AF-P010
General Purpose
Packing Tape

Material : BOPP FILM,Water based acrylic adhesive
Thickness : 34mic -80mic
Width :24mm--288mm
Length: 10m--2000m
Color : Transparent,Brown,Yellowish,Golden etc.
Package: Tower pack, Flat pack, Individual, Customized

No.: AF-LNP020
Low Noise
Packing Tape

Material :Super Clear BOPP FILM , Water based Acrylic adhesive
Thickness : 38mic -60mic
Width : 45mm,48mm,50mm, 55mm
Length: 50m-200m
Color :Transparent,Super clear,Brown, Yellowish,Golden,Printed,etc.
Package: Tower pack, Flat pack, Individual, Customized

STATIONERY TAPE SERIES

OFFICE
SCHOOL

ORDINARY

COLOR & PRINTED

SUPER CLEAR

INVISIBLE

NO.: AF-S060

Ordinary
Stationery Tape

Plastic core (3.4cm/3.6cm)

3"(76mm) Paper core

Stationery Tape is made with water-based acrylic adhesive coated on Bopp films, Applicable to general sealing, paper mending, fixing & splicing and gift wrapping, Easy-Tear is more better and convenient to use without cutting machine at home, office and school. Available in variety of widths, lengths and colors to meet your special requirement. It is ideal for school and office use, light packing and reinforcing documents which can be equipped with dispenser.

Features:

- . Light and convenient, strong tensile, strong adhesion,
- . Clear, nondiscolouring, Easy-Tear
- . Good low temperature and aging resistance

AVAILABLE COLORS

width: 11mm----24mm
Length: 8y----72yds
Thickness: 34um----50um
Printing: Offer Printing
Temperature: Normal Temperature

3" Paper Core Stationery Tape:
Inner Core: 3" paper core
Paper core Printing: Available

1" Plastic Core Stationery Tape:
Inner core: 1" plastic core
Core Printing: No
logo printing paper outside the plastic core: Yes

NO: AF-S070
Super Clear
Stationery Tape

Material :SUPER CLEAR FILM , Water based Acrylic adhesive
Thickness : 36mic -50mic
Width 12mm, 18mm,24mm
Length: 8M-33M
Color : Super clear , Super yellowish clear

Packaging: shrink packaging (independent , vertical ,flat) with label or barcode (as customer's require)
Feature : 1: Strong adhesive . 2. Good low temperature and aging resistance 3,Super clear ,non yellowing

NO.: AF-S080

Colored & Printed
Stationery Tape

Convenient to use, easy tear available

Attractive colors

Width: 11mm-24mm

Length: 10m-66m

thickness: 35mic -50mic

Usage :

. Suitable for art crafts & design, drawing

. Sealing, jointing , Splicing and paper mending

. Temporary holding

. Gift wrapping

. Reinforce documents

. Light packaging

COLORS: RAINBOW

AVAILABLE PRINTING COLORS: 1-4 COLORS

we supply different kinds of stationery tapes

NO.: AF-S090

Invisible Tape

Material : Bopp matt film, Water based Acrylic adhesive

Thickness : 48mic

Width 12mm, 15mm, 18mm, 19mm 24mm

Length: 10M-33M

Color : White

Packaging: shrink packaging with label , barcode or blister card (as customer's require)

Feature : 1: Visible to the applied surface .

2. Convenient to use, easy tear available

3, Invisible in photocopy and fax

4, Moderate adhesion , peel off without adhesive residue or damage to applied surface

Usage : for office or school application

What is the packaging style

- 12mm, 12rls/snk, 720 rls/ctn
- 18mm, 8 rls/snk, 480 rls/ctn
- 24mm, 6rls/snk, 360 rls/ctn

Plastic core: 1rls /pp bag, 10 bags /inner box

Paper core: 1rls/pp bag, 16 bags/inner box

Normal shrink: 12mm, 12 rls/ snk,
18mm, 8rls /snk
24mm, 6 rls/snk

1. 3 rls in opp bag with tag
2. 1 rls in dispenser with 5 rolls in blister card
3. 1 roll in dispenser in blister card
4. 3-4 rls in blister card

1. 4 rls in color dispensers in blister card
2. 1 roll in dispenser in blister card
3. 2 rls in blister card

PS: different packaging according to customers' request

MULTIPURPOSE TAPE

Our tape has enjoyed the high reputation abroad from competitive price, strong adhesive, one-stop variety, prompt delivery and good after-sales service etc.

NO.: AF-M100
Masking Tape &
Washi Tape

1. General purpose : 60 degree
2. Painting : 80 -120 degree

Masking tape is made of imported crepe paper coated with rubber adhesive or water based acrylic adhesive Used for indoors or outdoor decoration, painting for home appliances and high class cars.

- 1) Material: Crepe paper with rubber adhesive or washi paper with water based acrylic adhesive
- 2) Width and length: According to clients' requests
- 3) Leaves no residue
- 4) Shadowing when spray-painting
- 5) Peels off easily
- 6) Reduces surface scratches
- 7) Suitable for mounting printing plates, decoration, painting and a multitude of other uses

Thickness : 110--145mic(+/-10mic) etc
Paper Core : 3mm Diameter 3"(77mm) of paper
Color : White, light yellow and Colorful

Width/ Length: customized
JUMBO ROLL: 1250mm *1800m

NO. :AF-D110
Duct Tape

Adhesive types available: hotmelt, rubber
Application:

Designed for the reinforced protection of various pipes and objects, heavy duty packaging, carpet joints and affixing.

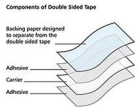

Popular size: Width: From 15mm to 1060mm
Length: 10m, 25m, 50m, 10yds, 20yds, ...1000m
THICKNESS: 0.17-0.3mm
JUMBO ROLL SIZE: 1.02m*600m Mesh: 35 mesh, 50mesh, 70mesh
COLORS: BLACK, RED, TAN, SILVER, GREEN, YELLOW, BLUE, WHITE
PRINTING AVAILABLE OR NOT: AVAILABLE

NO. : AF-D120
Double Sided
Tissue Tape

MATERIAL: tissue paper with solvent, waterbased or nonmet glue
THICKNESS: 70MIC 80MIC, 90MIC, 100MIC
WIDTH: 9mm/12mm/15mm/18mm/24mm/36mm/48mm
LENGTH: 10-50m
COLOR: white, TEMPERATURE: 0-40 degree
PACKAGE: shrink film or independent package.
FEATURE: strong adhesive, low temperature resistance
USAGE: suitable for joint, fixing, leather manufacture, gift packaging, nameplate fixing, Bag cover sealing, bundling, holding and other industrial & household usage, and shoes industry.

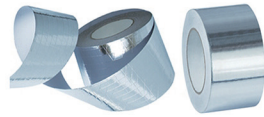

NO. : AF-D121
Double Sided
Foam Tape
(PE / EVA)

Material: EVA foam double sides coated with hot melt adhesive
Thickness: 1mm, 1.5mm, 2.5mm,
Width: 9mm/12mm/14mm/15mm/16mm/18mm/20mm...etc.
Length: customized
Color: White
Temperature: -20-120° C
Packaging: Shrink film, common carton/box packed independent packing bag, dust-proof Anti-fouling

Feature:
Good shockproof and buffer performance Sound-proofing, Heat-proof, moisture-proof, corrosion-proof
Suitable for all kinds of electronic products, electrical appliances, automotive, communications, computers, toys, household hook, sports equipment, such as the plastic and hardware industry used as auxiliary materials.

NO. : AF-A130
Aluminum Foil Tape
(Normal & Fiberglass Reinforced)

Adhesive types available: water-based, solvent-based
Usage: Be widely used in refrigerators, refrigeration industry, construction industry, insulation materials industry, electronic industry, aviation, etc.

- Features:
- 1) Soft aluminum foil, coated with aggressive solvent-based acrylic adhesive, which provides with high peel adhesion and quick sticking
 - 2) Designed for sealing joints and seams of foil jacket facings in air-conditioning duct work and for fixing copper tubing in refrigerators
 - 3) With various types of high-performance pressure-sensitive adhesive coating

- Specifications:
- 1) Foil Thickness: 15, 18, 20, 26, 28, 30, 36, 38, 40, 45, 48, 50mic
 - 2) Roll width: 48, 50, 60, 72, 75, 96, 100mm
 - 3) Roll length: 27, 30, 45, 50m...
 - 4) Log roll: 1.02 x 45m, 1.02 x 50m
 - 5) Jumbo roll: 1220mm(1200mm) x 1200m, 1.02 x 1000m, 1.02x500m

NO.: AF-PVC01
Pvc Insulation Tape

NO.: OKH-F150
Filament Tape
(FILAMENT OR
CROSS)

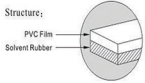

Material:Based on PET, in line with polyester fiber reinforced coating, hot melt adhesive or rubber produced.
THICKNESS: 130MIC-180MIC
WIDTH: 25mm/50mm/customized
LENGTH: 20-50m
COLOR: clear
TEMPERATURE: 0-40 degree
PACKAGE: shrink film or independent package.
FEATURE: Plastic fiber reinforced material, the tensile strength is extremely high, not easy to break. Strong adhesion, perfect packing effect and is not easy to loose. With high wear resistance and moisture resistance. High transparency, no tape degumming, used on the surface of metal or plastic glue stains are not left.
USAGE: for package of household appliances such as washing machines, refrigerators and other metal or wooden furniture packages. Also card board or carton packages during transportation or fixed.

Material: Soft PVC film coated with hot melt adhesive
PVC adhesive tape is made by smearing rubber like pressure-sensitive adhesive on PVC film and mangling them.
Feature:It has the feathers of insulation ,fire-resistance, high-voltage- resistance and cold resistance.
Excellent insulation Good flame retardant Excellent resistance to voltage and low temperature
It can be used in many electronic spare parts, automobile wires, winding wires and insulation protection.

1. Identifying aisles/walkways within factories and warehouses
2. Doorways and steps
3. Hazardous areas
4. Directional color coding in public buildings
5. Marking out internal sporting courts e. G. Tennis, netball, football and volleyball

Thickness: 0.12mm ~ 0.18mm Width: 8mm ~ 1250mm Length: 3m ~ 50m
Package: cellophane, shrink, blister card, etc.

NO.: AF-W140
PVC Warning Tape
PE Caution Tape

1)PVC film coated with Solvent base acrylic adhesive tape
2)The PE warning tape is made of PE film without adhesive coating good flexibility, widely used for projects that need to be highly visible, deliver the ultimate tape for general identification marking and overall visibility.
Used for buildings, road signs warning, color coding, alert, press, etc. Play id alert role. Also can be used for packaging, fixing, pipe winding and package. Comparing with the ground paint operation, using on ordinary cement floor is more easier.
Caution tape is usually used in construction location, hazardous location, crime scenes etc for segregation of traffic accident or emergency. This Caution tape also used for blocking in power force checking and overhaul, road administration, environment protection project or other special zones. It's convenient and does have to contaminate the environment of the site.

1) Material: High quality PE
Length:100m,200m,250m,300m,400m,500m
Width: 50mm,70mm,75mm,80mm,100mm,150mm
Thickness:0.03 - 0.25mm (30 - 250micron)
Printing:red/white, yellow /black,yellow /
CAUTION,red/DANGER, could be customized

- 2) materials; PVC film
- Thickness: 0.13mm, 0.15mm, 0.18mm
- Adhesive: rubber
- Cut Roll Width: 38mm,48mm, 50mm
- Log Roll Size: 1260mm x30m
- Color: black, grey, white or yellow/Black. white/Red

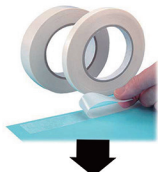

NO.:AF-K160
Kraft Tape

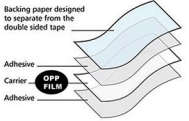

Kraft Paper Adhesive Tape made of Kraft paper and rubber, acrylic or hot melt adhesive.
1. Excellent adhesion, high tensile strength, strong climate adaptability. 2.Environment-friendly, writable, printable , non-toxic, tasteless, water-activated, recycle. 3.Easy to tear. 4 Excellent holding power, stable quality and light unwinding force.
Usage:
1. Widely used in carton sealing, fixing, mosaic porcelain piece paste, silk print seals the grid, heavy duty-packing, etc. It's a good alternative of the general plastic film tape.
2. Widely used in heavy duty packing, paper splicing, clothing processing , carton packing which demand covering the print on surface
Printing: Offset Printing
Specifications: Width: 12mm-1020mm Length: 3-100m as Your Request
Thickness: 120mic; 140mic; 150mic
Color: Natural Kraft Paper: White Kraft Paper: Colorized Kraft Paper:

NO. :AF-P170
Double Sided
Opp Tape

OPP FILM

Components of Double Sided Tape

Based on OPP, made on the two sides of oil glue, the tape has long time lasting adhesion, also water resistance, temperature resistance and anti ultraviolet radiation. Convenient and easy to tear, and tearing without leaving residual glue, suitable for office and home lightweight items of the joint, solid.

MATERIAL: OPP with solvent glue **THICKNESS:** 90MIC
WIDTH: 24mm/36mm/48mm or customized **LENGTH:** 30-50m **COLOR:** clear
TEMPERATURE: 0-40 degree
PACKAGE: shrink film or independent package.
FEATURE: double side strong adhesive, water resistance, temperature resistance and anti ultraviolet radiation.
USAGE: Can be used to fit the logo, photos, envelopes, hooks, printing and advertising paper.
A variety of shoe and leather industry material adhesion, fixed.

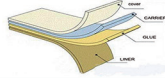

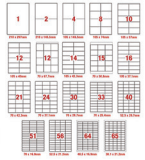

NO.: AF-L190
Label Sticker

Materials: Thermal. Film(BOPP/PET/PE), Synthetic Paper, Art paper, etc.
Offset adhesive, hot melt, white and yellow glassine liner

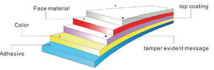

Color: Blank or with printing, all kinds of color ,CMYK or Pantone
shape: roll or sheet
Natural size and customized. Such as: 210mm×297mm, 105mm×148.5mm, 70mm×50.8mm, 63.5mm×38.1mm, 48.5mm×25.4mm, etc.

USAGE: Food trade, Express, Supermarket, Library, Grocery, Logistics, Cosmet Electronic, Stationery and Bags, etc.

TAMPER TAPE
HI-1702116

NO: AF-S180
Tamper Evident
Security Tape

Evident void security tape is to coat acrylic on special treated PET film. Once a package is sealed with security tape, it cannot be opened without leaving an irreversible clear message. It reassures people that packaged products have not been disturbed.
It can be used for the packing of shipping cartons, pallets, letters, bags and many other packages. After applying the security tape, any removal will cause the hidden message "VOID OPEN" be shown both on the security tape and the application surface. The security tape will be not sticky any more, because the glue transferred onto the application surface completely.
The hidden message can be customized.

Carrier: pet
Adhesive: Acrylic
Thickness: 0.05mm
Width(mm): 3-530

Masking Covering
Tape

Masking Covering Tape is constructed by Masking Tape, HDPE Film. The Part Of Crepe Paper Masking is self adhesive. The statically charged HDPE film clings to masked surfaces which provides convenience in application
This time-saving and compact 2-in-1 covering tape can be used for temporary protection of doors, wall, windows, windowsills, radiators and furniture during painting and plastering without leaving traces of adhesive after removal.

The statically charged HDPE film clings to masked surfaces which provides convenience in application. The product can be supplied in many unfold dimensions and therefore is suitable for small and large surfaces.
This product is only recommended for in-door applications
Size: Masking tape width: 18mm
Film Width: 300mm, 450mm, 550mm, 1100mm, 1500mm, 2100mm, 2400mm, 2700mm. customized
Film thickness: 8mic masking tape thickness: 135 mic

14

NO. :AF-S210
Plastic Strapping
Belt

Material : PP (Polypropylene) Or PET (polyethylene terephthalate)

its plasticity, fracture strong rally, bending fatigue resistance, density, tensile impact of good performance, ease of use, etc., are now available at all in the field of

Usage: Hand and machine use; Used for product packing

Feature: Good flexibility Strong tensile Light weight Color & printed

Color: white, yellow, transparent, black, red, green, etc, various colors.

1. Paper industry 2. Beverage industry 3. Construction industry 4. Printing industry 5. Metal industry 6. Timber industry

Protective Film

PE adhesive Film is high performance surface protect adhesive tape, consisting of P.E backing which is coated with acrylic solvent based adhesive on its one side. It has good heat resistance and excellent wettablity.

Usage: can be used to protect carpet, hardwood floors, stainless steel plate, aluminum plate, mirror panel, decorative plate, plexiglass panels, pvc sheet, car surface cover, or almost any kind of surface. It has stable adhering capacity and doesn't need re-applying on site and easy to peel away from the surface and leaves no residue that requires cleaning away. These films can be used by hands or tools.

4. This is Pallet Wrap Film (LLDPE Stretch Film) produced by three layer common extruding machine, it provided excellent protection for the surface of packed products. it can reduce packaging cost, its economical, labor saving. Efficiency, increasing. it is easy to use and remove, suitable for palletized packing of products and transportation operation.

NO.: AF-S240 Non-Skid Safety Tapes

NO.: AF-BF270 Butyl tape

PVC/PET base material is covered with quartz sand/ emery/alumina sand/PEVA rubber material,High traction, anti-slip, waterproof,coated with an aggressive pressure-sensitive acrylic adhesive. For use indoors or outdoors; on walkways, ramps, stairways; in machine shops, work areas, etc.

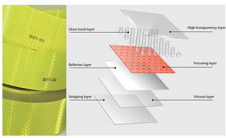

It is available in four different sizes and a range of colours. The tape has a high-quality adhesive that can adhere to a range of surfaces including concrete.

butyl waterproof tape ,it is main made by butyl rubber With a variety of other environmental AIDS,The environmental friendly solvent - free sealant is produced by special process Is an advanced environmental protection waterproof sealing material.,Can maintain flexibility and adhesion, can withstand a certain degree of displacement and deformation, and has good tracking,Excellent waterproof, sealing and chemical resistance, aging resistance, weather resistance, uv resistance,have long service life

1. Steel roofing color steel tile, mining plate between the mutual lap, Seal at the gutter connection
- 2.Doors and Windows, concrete roofing, ventilation ducts are sealed and waterproof
- 3.PC board, sunshine board, endurance board waterproof seal
- 4.Repair and waterproof water seepage parts such as bullet train cars, Van, container, train,
- 5.Construction bridge waterproof seal shock absorption
- 6.Dustproof workshop is waterproof and sealed
- 7.Glass reinforced plastic curtain wall is waterproof and sealed

NO: AF-R250 Reflective Tapes

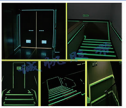

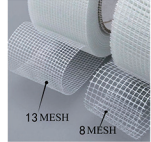

- * Made of untearable PET + PVC material, coated with high density acrylic glue, it has stable chemical properties. It's high reflecting rate to return the incident lights completely.
- * High counter-reflective ability, high visualization
- * Excellent extensibility, good stickiness, high brightness
- * Colors available: red& white, red& yellow, red , yellow, white, green, ...
- Color: Yellow, Red, White, Red/White, Yellow/Black, Green, Blue,etc.

Primarily designed for permanent &temporary traffic signage. Application surface should be flat (not recommended for unpainted stainless steel surface)

NO.: AF-FM280 Fiberglass Mesh tape

Fiberglass mesh tape is woven from C-fiberglass yarn, then coated with adhesive acrylic latex. Save considerable time and eliminate one step of mudding when combining the self-adhesive mesh tape with a setting compound. The mesh tape's open weave construction will allow moisture to evaporate evenly and much more quickly without the worry of bubbles and blistering when compared to paper tape

Applications
Mainly used for the joints of wall and ceiling and other building materials product for crack prevention.Repair dry wall, join plaster board and repair cracks and other damage in other wall surfaces.It is an ideal and necessary material for inside wall repairing and decoration of modern building.

NO: AF-FT260 Fluorescent Tape

The glow in the dark tape is a photo-luminescent film made of PVC glowing film, coated with solvent acrylic. It is durable, UV and weather resistant, perfect performance for indoor & outdoor use. Convenient to carry, easy to use and can be used for a long time. After charging visible light for 10 - 30 minutes, The glow tape can glow in the dark for exceeding 4 hours
It is specially formulated to adhere to avariety of surfaces including: painted steel, clear coat lacquer, and aluminum. The adhesive is protected by a release liner that shall be removed by peeling, without soaking in water or solvents.
